# COMPANY REGISTRATION

The very first step on your path to run your own Forex Broker have to be registering a company to be able to sign legal agreements with technology providers as well as liquidity providers. It's a mandatory step that cannot be skipped or postponed but we can do it for you!

a.

---

## Choosing the right jurisdiction

We offer our business expertise to help you establish a new company according to your needs and expectations presenting the most useful solution. We will advise you regarding the time, requirements and cost of such procedure. We have a network of agents around the world who can also help you obtain a Forex license in Europe, Asia or Africa.

b.

---

## Required documents

We will provide you with a detailed list of all documents you need to collect and instruct you on how to confirm its authenticity to meet all legal requirements

c.

---

## Formalities

After you submit all the documents we take care of the paperwork on your behalf so you can focus on preparing to run your Broker and attract clients.

### Corporate services we provide:

- Company Incorporation (offshore corporate service)
- Corporate bank account
- Financial Licensing (semi regulated & regulated)

# RELIABLE TECHNOLOGY

The main feature is the Match-Trader, our in-house trading platform designed to adapt its interface and features to the user's device (mobile/web/desktop) making it the best platform to trade on the go.

## Hassle-free installation

The app is downloaded and installed directly from the Broker's website. Mobile version can be launched from an icon on the device's home screen.

## Branding possibilities

Match-Trader offers wide branding possibilities like adding your own name of the app, your own logo (also to the mobile app) or changing colours.

## Best app to trade on the go

All user's settings are synchronized across web, mobile and desktop in real-time. Meaning that changes are instantly visible after switching devices.

## Transparent and user-friendly

The platform eases trading decisions by providing a full view of funds required to open a trade or expected result of take/profit and stop/loss orders.

## Self-management for traders

Match-Trader with a built-in CRM feature gives traders the ability to manage their accounts without leaving the platform:

- open a new account - demo or live
- deposit funds via multiple payment options
- transfer funds between accounts
- request withdrawal

# CLIENT OFFICE

Seamless integration of Match-Trader platform and Client Office provides access to all of your trading accounts with a single sign-on, to help you manage all of your clients' and IBs' activities in one place.

## Fast onboarding

Improve the flow of users on your platform by automating onboarding procedure. Thanks to the automatic generation of registration links for clients and sub-IBs, demo and live accounts can be open immediately.

## Instant deposits

Brokers can track and automatically book all payments on individual accounts to provide instant deposits. Client Office supports various deposit and withdrawal options including e-payments and cryptocurrencies.

## Multi-level IB system

Up to 4 levels - with dedicated IB portal for all IBs and sub-IBs to build a network of collaborators and manage commission

### Client office FX CRM also provides:

- Automatic email notifications about all clients activities
- Integrated PAMM / MAM solution
- E-wallet functionality
- Dashboard view displaying the most important information about the account
- Feature to tracking the balances of all client's accounts
- View of all open positions, historical trades and ledgers on trading accounts

# EFFECTIVE PAYMENTS

Settle all of your clients' payments in Crypto while offering your customers trading in FIAT currencies.

Match-Trader instant broker solution includes Match2Pay Crypto Payment Gateway to provide various payment options. It supports payments in most popular currencies: Bitcoin, Ethereum, USD Tether and all ERC20 tokens.

## Automated crypto payments

Match2Pay allows collecting and exchanging cryptocurrencies in a fully automated way and depositing it straight to the trading account.

## Instant conversion from crypto to fiat

Crypto deposits can be converted to other currencies such as USD or stablecoins before booking them in Clients' accounts.

## Crypto purchase via credit card or wire

We are integrated with reliable and cost-effective crypto exchangers, therefore clients can buy cryptos via wire transfers and credit cards.

## Integrated PSPs Aggregator

Integration with PRAXIS Cashier, a Payment System Providers' (PSP) aggregator, provides access to 300 different PSPs and over 1000 various payment methods.

# LIQUIDITY CONNECTION

## LIQUIDITY INCLUDED IN THE MATCH-TRADER INSTANT BROKER OFFER

**Our ECN liquidity solution is based on ultra-fast matching engine technology, which guarantees no requotes, no rejections and no last look execution.**

**We provide our clients with internal liquidity based on our ECN system ensuring:**

- Access to multiple liquidity providers
- Advanced aggregation and matching technology
- Low latency server locations
- Execution speed of 50,000 transactions per second
- Razor spreads and commissions
- Low minimum monthly fee

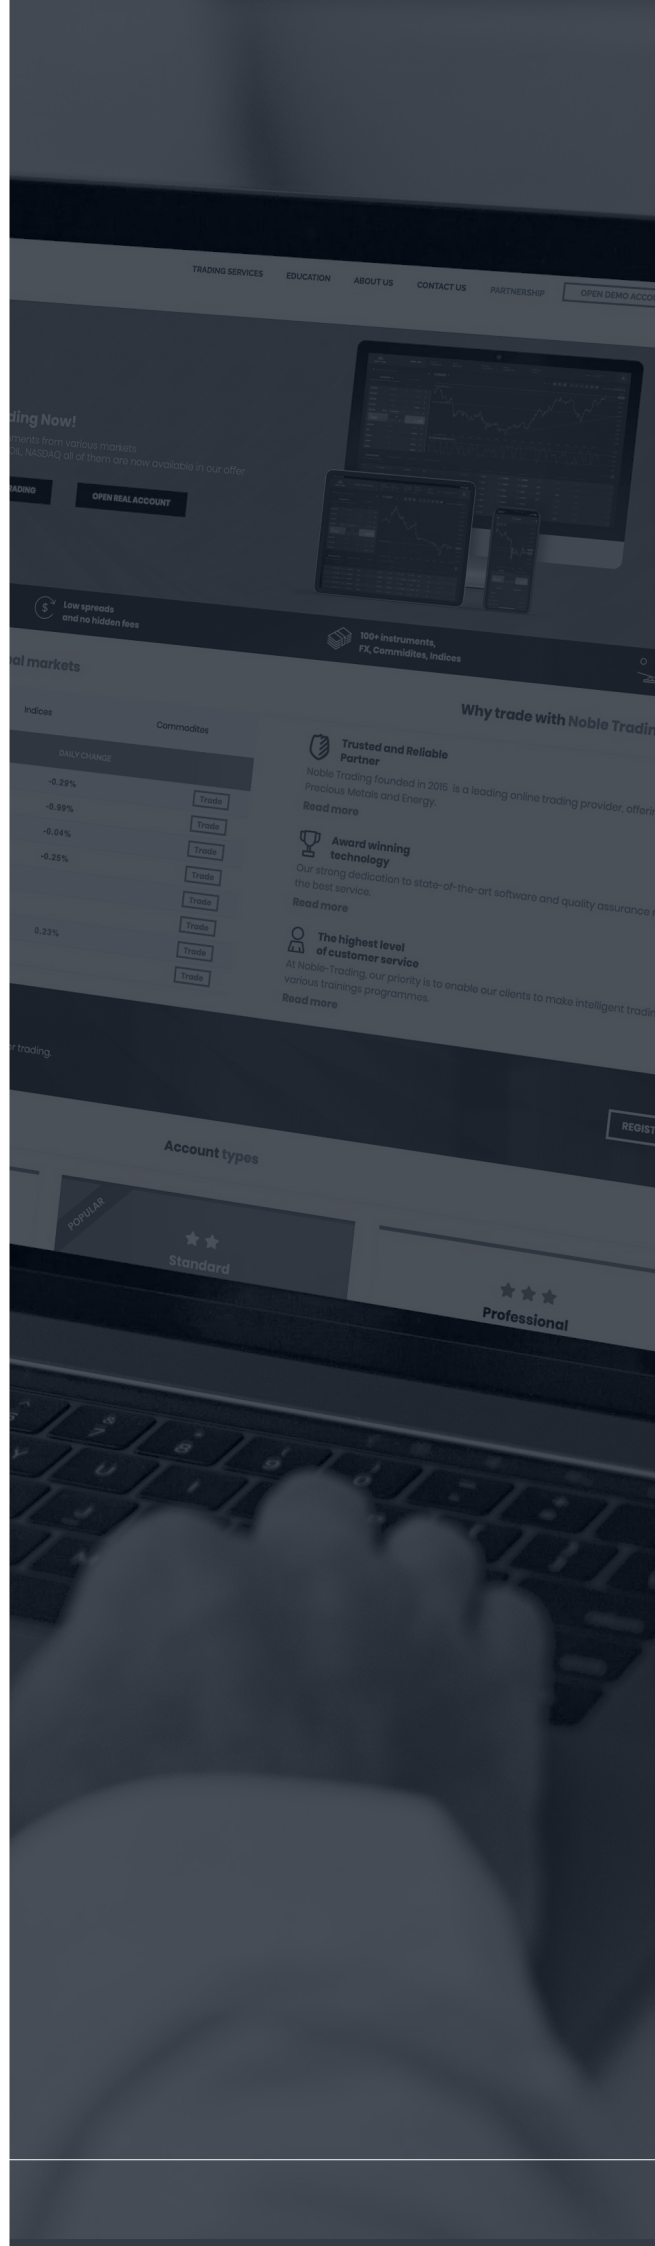

# PROFESSIONAL WEBSITE

## HELP YOUR CLIENTS FIND YOU!

Match-Trader instant broker solution also includes a ready-made branded website to build your Broker's image and convert visitors into clients.

We provide:

- **Fully functioning website**, meeting all the industry standards of usability
- **Integration of registration forms and Client Office**
- **Graphic layout adjusted to your brand and logo** (colours and graphics)
- **Professional marketing materials** of Match-Trader trading platform with mockups, video and overview
- **Onsite SEO optimization** for better organic reach
